

Philips Telecommunication Review

Volume 40, 1982

*Published by Philips' Telecommunicatie Industrie B.V.
Hilversum, The Netherlands*

Contents Volume 40, 1982

page	1	K. HUBÉE	Quality, an integral part of Competitiveness
	3	H. HEITINK	Quality Assurance Policy
	9	F. O. HARM	Component quality assurance
	17	T. W. HESSELINK	Quality control on the shopfloor
	25	J. A. BRAKEL	Designing a telephone system for quality
	35	R. H. BOURGONJON, W. G. EKAS	Reliability aspects of large software systems
	45	H. L. BAKKER	The quality of cable transmission systems
	54	H. VOLKERS	For once: in gold
	61	J. F. LANSU	Second special issue on optical communication
	62	A. J. M. DINGJAN	Philips optical fibre transmission systems, I: System evaluation
	71	N. A. BUIJS	Philips optical fibre transmission systems, II: The equipment family
	89	K. MOUTHAAAN	Optical fibres in the local network
	97	W. WEIDHAAS	Optical fibre cables for the subscriber network
	102	A. M. J. KOONEN, A. WISMEIJER	Optical devices for wavelength division multiplexing systems
	111	J. W. VERSLUIS	Doped silica multimode fibres from the production angle
	121	O. R. BRESSER	Optical cables for aerial application
	129	E. MEIER-ENGELN, M. SCHULZE	Fault locating and backscatter measurements on glass fibres
	141	C. RINDORF	Optical routes in Denmark
	149	A. H. M. BORM, N. H. HAMERS, F. STUCCHI	Very-long-distance television transmission over 60 MHz coaxial lines
	156	PH. UYTHOVEN	A 3600 kilometre 140 Mb/s digital line system
	183	J. DRUPSTEEN	A 1 + 1 protected digital muldex for 3 × 45 Mb/s to 140 Mb/s conversion
	193	A. M. GIACOMETTI	A simplified signal-to-noise ratio calculation for M-ary digital transmission systems over coaxial cables

- 205 W. F. NJIO, W. G. KUIPER
8TR 417 frequency generating equipment for FDM transmission
systems
- 217 K. BROKKELKAMP, F. W. J. VEERMAN
Design-400 in slim trim
- 225 A. VAN DEDEM, J. T. ENGWERDA
A new approach to 2 Mb/s transmission
- 233 A. POTUIT
18 MHz systems — still pulling their weight
- 239 P. C. JOOSTEN
Line switching in a coaxial loop network
- 253 C. FOSSÉPREZ, J. A. C. KING
Voice/non-voice switching
- 256 R. J. MULDER
TBX, a versatile business communication system
- 273 M. E. DENNIS
KBX, a Key Branch Exchange
- 282 H. VAN KAMPEN, D. VAN DER LUGT
DSX-40, cornerstone in Philips' text communication
- 291 M. STEIN
Sematrans modems, a survey
- 301 B. BARTHELEMY-JAPIOT
COMPAC family: a standard building-block approach to private
X25 networks
- 309 J. LANDBERGER
PACT 220, the silent teleprinter
- 311 M. J. JORDAAN
The P5900 text communication terminal for the office
- 321 S. M. KENDALL
IXT: a completely new telephone set
- 327 F. L. JANSEN
KT20 multi-function telephone terminals
